

Cane Toads: The Conquest

Directions: As you watch the video, “Cane Toads: The Conquest,” please write down notes on the graphic organizer below that will help you understand the following four main ideas about the cane toad, an invasive species that has plagued Australia for the last seven decades. When you are done, share your thoughts with your teacher by writing a paragraph in response to the writing prompts on Page 2 of this graphic organizer.

Main Idea #1: How the cane toad spread to Australia and how they have spread so rapidly through the Australian Outback.

Main Idea #2: The problems cane toads have caused for the people and wildlife of Australia.

Main Idea #3: The ways the people of Australia been trying to control or even eradicate the cane toad in Australia.

Main Idea #4: The opinions people of Australia have of the cane toad.
