

Cell Analogy Poster MAP

Objectives: Students will use the internet to research the functions of cell organelles.

Students will be able to define the term analogy.

Students will work in groups to create analogy using the cell and one of the following suggestions:

- * City
- * Factory
- * Pizza Parlor
- * Automobile
- * Airplane or airport
- * Starship Enterprise
- * Zoo
- * "Your own idea"
- * Shopping Mall

→ Must include a min. of 10 organelles in your analogy.

ie Nucleus - main control center of the cell. Holds all info needed for cell to run properly.

∴ Therefore, the nucleus is the CITY HALL, where all the info, policy, & governing is done to run the city.

→ The Poster:

- Needs a well drawn picture of your analogy.
- Each part needs a short description written (similar to the example above).
- Grade is based on creativity of your analogy, not artistic ability.
- This can be a map view, profile view, or any other creative way you can think of. Add color.
- When finished, hang up on hallway walls.
